

AutoCount POS V5.0 system is mobile payment enabled to boost retail sales. We help retail businesses grow by providing a holistic POS solution.

Integrated with Mobile Payment/e-Wallet

It is equipped with mobile payment/e-wallet integration across Alipay, Boost, TnG eWallet and more. This allows you to receive payment instantly without boundaries. Embracing mobile payment will take your business to the next level.

Fully Integrated with AutoCount Accounting

Post POS transaction directly into Accounting modules seamlessly without repetitive entry.

Chain Store Management

Ideal for multi-outlets retail operation. Manage the system from HQ and receive the daily sales report in real time.

Scalable & Extensible

Designed to grow alongside with your business and customize the system according to your needs.

Access Control with Audit Trails

Determine what your staff can see and can do using the access rights and permission setting that comes with audit trail capabilities.

Business Intelligent Report

Customize sales or inventory reports easily to monitor branch performances and manage stocks better.
